Atty Dkt No. LYON 0103 PUS

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

- 1-21. (Canceled)
- 22. (Previously Presented) The catalyst of claim 71, wherein the sum $a+b\le 2$ when the oxidation state of M is 4 or less and $a+b\le 3$ when the oxidation state of M is greater than 4.
 - 23. (Canceled)
 - 24. (Previously Presented) The catalyst of claim 71, wherein X is halogen.
 - 25. (Previously Presented) The catalyst of claim 71, wherein X is Cl.
- 26. (Previously Presented) The catalyst of claim 71, wherein M is a Group 3 to 7 metal.
- 27. (Previously Presented) The catalyst of claim 71, wherein M is a Group 4, 5, or 6 metal.
- 28. (Previously Presented) The catalyst of claim 71, wherein M is titanium, zirconium, or hafnium.
 - 29. (Canceled)
- 30. (Original) The catalyst of claim 25, wherein M is titanium, zirconium, or hafnium.

Atty Dkt No. LYON 0103 PUS

- 31. (Previously Presented) A catalyst composition useful for the polymerization of olefins, comprising a catalyst of claim 71 and an activating co-catalyst.
- 32. (Original) The catalyst composition of claim 31, wherein said co-catalyst comprises an alumoxane or an aluminum alkyl.
- 33. (Original) The catalyst composition of claim 32, wherein said alumoxane comprises (poly)methylalumoxane, ethylalumoxane, or diisobutylalumoxane.
- 34. (Original) The catalyst composition of claim 31, wherein said co-catalyst is an acid salt containing a non-coordinating inert anion.

35 - 37 (Canceled)

- 38. (Previously Presented) The catalyst composition of claim 72, wherein X is halogen.
- 39. (Previously Presented) The catalyst composition of claim 72, wherein X is C1.
- 40. (Previously Presented) The catalyst composition of claim 72, wherein M is a Group 3 to 7 metal.
- 41. (Previously Presented) The catalyst composition of claim 72, wherein M is a Group 4, 5, or 6 metal.
- 42. (Previously Presented) The catalyst composition of claim 72, wherein M is titanium, zirconium, or hafnium.
 - 43. (Canceled)

Atty Dkt No. LYON 0103 PUS

- 44. (Original) The catalyst composition of claim 39, wherein M is titanium, zirconium, or hafnium.
 - 45. (Canceled)
- 46. (Previously Presented) The catalyst composition of claim 72, wherein said co-catalyst comprises an alumoxane or an aluminum alkyl.
- 47. (Original) The catalyst composition of claim 46, wherein said alumoxane comprises (poly)methylalumoxane, ethylalumoxane, or diisobutylalumoxane.
- 48. (Previously Presented) The catalyst composition of claim 72, wherein said co-catalyst is an acid salt containing a non-coordinating inert anion.
 - 49. (Canceled)
- 50. (Original) The catalyst composition of claim 45, wherein said co-catalyst comprises an alumoxane or an aluminum alkyl.
- 51. (Original) The catalyst composition of claim 45, wherein said co-catalyst is an acid salt containing a non-coordinating inert anion.
 - 52. (Canceled)
- 53. (Previously Presented) In a process for the polymerization of olefins in the presence of an olefin polymerization catalyst, the improvement comprising:

selecting as said olefin polymerization catalyst an olefin polymerization catalyst comprising the catalyst of claim 71.

54. (Canceled)

Atty Dkt No. LYON 0103 PUS

55. (Original) In a process for the polymerization of olefins in the presence of an olefin polymerization catalyst, the improvement comprising:

selecting as said olefin polymerization catalyst an olefin polymerization catalyst comprising the catalyst of claim 25.

56 - 57. (Canceled)

58. (Original) In a process for the polymerization of olefins in the presence of an olefin polymerization catalyst, the improvement comprising:

selecting as said olefin polymerization catalyst an olefin polymerization catalyst comprising the catalyst composition of claim 31.

59. (Original) In a process for the polymerization of olefins in the presence of an olefin polymerization catalyst, the improvement comprising:

selecting as said olefin polymerization catalyst an olefin polymerization catalyst comprising the catalyst composition of claim 32.

60. (Original) In a process for the polymerization of olefins in the presence of an olefin polymerization catalyst, the improvement comprising:

selecting as said olefin polymerization catalyst an olefin polymerization catalyst comprising the catalyst composition of claim 33.

61. (Original) In a process for the polymerization of olefins in the presence of an olefin polymerization catalyst, the improvement comprising:

selecting as said olefin polymerization catalyst an olefin polymerization catalyst comprising the catalyst composition of claim 34.

62. (Canceled)

Atty Dkt No. LYON 0103 PUS

63. (Previously Presented) In a process for the polymerization of olefins in the presence of an olefin polymerization catalyst, the improvement comprising:

selecting as said olefin polymerization catalyst an olefin polymerization catalyst comprising the catalyst composition of claim 72.

- 64. (Canceled)
- 65. (Original) In a process for the polymerization of olefins in the presence of an olefin polymerization catalyst, the improvement comprising:

selecting as said olefin polymerization catalyst an olefin polymerization catalyst comprising the catalyst composition of claim 39.

66. (Original) In a process for the polymerization of olefins in the presence of an olefin polymerization catalyst, the improvement comprising:

selecting as said olefin polymerization catalyst an olefin polymerization catalyst comprising the catalyst composition of claim 41.

67. (Original) In a process for the polymerization of olefins in the presence of an olefin polymerization catalyst, the improvement comprising:

selecting as said olefin polymerization catalyst an olefin polymerization catalyst comprising the catalyst composition of claim 44.

- 68. (Canceled)
- 69. (Original) In a process for the polymerization of olefins in the presence of an olefin polymerization catalyst, the improvement comprising:

selecting as said olefin polymerization catalyst an olefin polymerization catalyst comprising the catalyst composition of claim 46.

Atty Dkt No. LYON 0103 PUS

70. (Original) In a process for the polymerization of olefins in the presence of an olefin polymerization catalyst, the improvement comprising:

selecting as said olefin polymerization catalyst an olefin polymerization catalyst comprising the catalyst composition of claim 47.

71. (Previously Presented) A catalyst comprising units of the formula:

$$\begin{bmatrix} R' & R' \\ R' & X_c \end{bmatrix}_a$$

$$\begin{bmatrix} R \\ \vdots \\ C \\ R \end{bmatrix}_{n} NR - , \begin{bmatrix} R \\ \vdots \\ C \\ R \end{bmatrix}_{n} PR - \text{ or } \begin{bmatrix} R \\ \vdots \\ C \\ R \end{bmatrix}_{n} O - \underbrace{\begin{bmatrix} R \\ \vdots \\ R \end{bmatrix}}_{n} O - \underbrace{\begin{bmatrix} R \\ \vdots \\ R \end{bmatrix}}_{n} O - \underbrace{\begin{bmatrix} R \\ \vdots \\ R \end{bmatrix}}_{n} O - \underbrace{\begin{bmatrix} R \\ \vdots \\ R \end{bmatrix}}_{n} O - \underbrace{\begin{bmatrix} R \\ \vdots \\ R \end{bmatrix}}_{n} O - \underbrace{\begin{bmatrix} R \\ \vdots \\ R \end{bmatrix}}_{n} O - \underbrace{\begin{bmatrix} R \\ \vdots \\ R \end{bmatrix}}_{n} O - \underbrace{\begin{bmatrix} R \\ \vdots \\ R \end{bmatrix}}_{n} O - \underbrace{\begin{bmatrix} R \\ \vdots \\ R \end{bmatrix}}_{n} O - \underbrace{\begin{bmatrix} R \\ \vdots \\ R \end{bmatrix}}_{n} O - \underbrace{\begin{bmatrix} R \\ \vdots \\ R \end{bmatrix}}_{n} O - \underbrace{\begin{bmatrix} R \\ \vdots \\ R \end{bmatrix}}_{n} O - \underbrace{\begin{bmatrix} R \\ \vdots \\ R \end{bmatrix}}_{n} O - b is an integer from 0 to 2;

the sum of $a+b \le 3$;

c is an integer from 1 to 6; and

the sum a+b+c equals the oxidation state of M.

- 75. (Previously Presented) The catalyst of claim 74, wherein the sum $a+b\le 2$ when the oxidation state of M is 4 or less and $a+b\le 3$ when the oxidation state of M is greater than 4.
 - 76. (Previously Presented) The catalyst of claim 74, wherein X is halogen.

Reply to Office Action of October 17, 2003

Atty Dkt No. LYON 0103 PUS

- 77. (Previously Presented) The catalyst of claim 74, wherein X is Cl.
- 78. (Previously Presented) A catalyst composition useful for the polymerization of olefins, comprising a catalyst of claim 74 and an activating co-catalyst.
- 79. (Previously Presented) The catalyst composition of claim 78, wherein said co-catalyst comprises an alumoxane or an aluminum alkyl.
- 80. (Previously Presented) The catalyst composition of claim 79, wherein said alumoxane comprises (poly)methylalumoxane, ethylalumoxane, or diisobutylalumoxane.
- 81. (Previously Presented) The catalyst composition of claim 78, wherein said co-catalyst is an acid salt containing a non-coordinating inert anion.

82-104. (Canceled)
